**(54) AIR CIRCULATION AND
FILTERING DEVICE**

(57) Abstract:

PURPOSE: To improve the dustproof efficiency, by guiding the air flow taken out to the outer peripheral side of a magnetic disk almost perfectly into a filter with a spoiler.

CONSTITUTION: A circular air flow that flows with the surface of a disk 2 which turns within an air tight container 4 is flown in almost perfectly to an air filter 5a with a spoiler 3a. And clean air through the filter 5a flows in toward a magnetic head 1, and the dustproof efficiency can be improved.
